

A close-up portrait of a woman with a somber expression. Her face and upper chest are covered in red and orange body paint, with some areas appearing smeared or dripping. She wears a crown made of red and purple flowers. The background is a light-colored wall with a grid pattern, possibly a shower stall. The lighting is dramatic, with strong highlights and deep shadows.

Oscar Riveros

Born in 1979 in Santiago, Chile

Resides and works in Santiago, Chile

Biography:

Oscar Riveros, born on June 20, 1979, in Chile, currently resides in Santiago, Chile. He is a prominent figure in the realm of contemporary digital painting. Riveros primarily works with AI augmented digital techniques alongside traditional painting methods. Renowned for his mastery of digital hyperrealism, Riveros is best known for his ability to create captivating works that delve into the inner realms of human existence.

Riveros' oeuvre is characterized by his exploration of profound themes such as individuality, duality, and multipolarity. His paintings are laden with symbolism and mystery, inviting viewers to unravel their deep meanings. Through his art, Riveros aims to evoke introspection and contemplation, providing a lens through which audiences can explore the complexities of the human condition.

Notable exhibitions featuring Riveros' work include the 2024 Arte Laguna Prize 19th FINALIST'S EXHIBITION at Arsenale Nord, Venice, Italy. His pieces have been collected by private collectors in Chile, attesting to the resonance and significance of his artistic vision. Through his dedication to pushing the boundaries of digital painting and his exploration of profound human themes, Oscar Riveros continues to leave a lasting impact on the contemporary art world.
